Preface

The social media phenomenon that is sweeping the entire world has created rolling changes in major aspects of our lives, rolling changes because each succeeding occurrence appears to be unheard of some moments earlier. We now take changes as a way of life. We are born with them and we deal with them like we do with the basic function of living itself such as eating, sleeping, laughing, worrying, so on so forth.

Lamentably, the gradual demise of the printed medium of communication, the art that propped our very own democracy in the first place, is the result of the phenomenal changes. A book written to deal with the changes is out of step when placed alongside a cell phone that can make them instantly. Such is the case with "Saturation Advertising", written about political campaign strategies.

One thing social media may have to grapple with for dominance in the way we perceive things is the printed truth. Even with the perpetuation of the fake news, the conspiracies, and the denials of proven facts through the use of social media, the printed truth still prevails, notwithstanding the constant pestering,

With many states in the United States of America, each one having its way of exercising authority and each one having its unique needs, the election of leaders who can get together politically is of prime importance. Not only will they have to patch party differences, they also have to reconcile their stands on certain issues like gun control, climate change, same sex marriage, offshore oil drilling, and so on so forth.

"Saturation Advertising" is always about the truth supplied by the subscribers and the data derived from the United States Bureau of Census. The truth about certain candidates is in their profiles which are prominently and repeatedly displayed on media screens larger than that of the cell phone. The candidates' stands on certain issues are displayed as well.

AlertPolls.com provides the venue for electing the right candidates to hold office in our government and to lay the groundwork for the benefit of our generation and the generations coming thereafter. Control of the government is in our hands through the ballot box. Let's not allow complacency miss our chance for real and progressive change. Let's vote!

Dedication

These children owe their future to us, the decision makers who decide what type of government we ought to have. How the government is managed depends on the candidates we choose to lead. This book provides guidance on electing the right leaders.

Introduction

Parody versus comedy - the comparison is sane because both are not genuine. But comparing parody and leadership is instantly stark because parody remains unreal while leadership is expected to be genuine. The characters do not change, only their roles do. They are not different from the people we encounter daily including those we elect to be leaders in government.

Governance is the domain of the politicians in government or in private industries; they lead, they manage, and they rule. Once they get to the coveted positions of leadership, they become role models in the community which is fine for the most part as long as they know how to manage their scruples. Unfortunately, a few of them do not.

Mismanagement manifests itself in different ways. The inept one is evident when it affects things that have physical existence. Corrective actions such as change of leadership can be initiated to avoid further damage. Deceptive mismanagement on the other hand, occurs when the appearance of prudence is utilized to conceal the real motive which is insincere, misleading, and beguiling. It is the type of mismanagement that must be watched out for closely because it could place the community in some kind of chaos.

The leaders who mislead derive their beguiling strength from their followers who themselves promote confusion and disarray. In fact, thriving in chaos so to speak is the staple that those leaders live on. However, they are not unrestrained because the mechanism to curtail their power exists by way of the ballot box which is very effective when used prudently.

Although it is now a privilege, the right to vote is still threatened in few instances without rancor over the blood that was shed to secure it. But luckily, towards a more stable community governed by capable men and women, the freedom to choose better leaders is expanding through the internet.

AlertPolls.com provides a venue for choosing the right candidates to hold office in our government and to lead us to progress and prosperity. We, the next generation, and the next ones after that, will benefit from the choices we make now.

Users Quick Guide

Saturation Advertising

Home Page²

The screenshot shows the AlertPolls.com website interface. At the top, the logo reads "AlertPolls.com (aka TVTyme.net) The pool of alert candidates!". A navigation bar includes "Welcome, Guest ()", "Mueller Report", "CNN", "The Hill", "C-Span", "Header Strip", "K News", "User's Guide", "Assist", "Qanda", "Sample Flyer", and "US Cities".

The main content area features several sections:

- Random Candidates and Issues:** Includes a "Left Carousel" and a "Right Carousel" with the text: "GREAT! ... The United States always is! Let's make it even GREATER! Elect the right candidates! Register and vote!". Below the right carousel, it lists: "Target regions/cities...!", "Candidate's qualities...!", and "Stand on important issues...!".
- Central Carousel:** Displays candidate entries like "Nancy* Snow for Mayo..." and "Arthos* Villiano for...".
- Region Selection Area:** A grid of state names for selection, including Alabama, Illinois, Montana, Rhode Island, Alaska, Indiana, Nebraska, and others.
- 2-Column List of Candidates:** A list of candidates with details such as "Canditte* Weiner - Missouri - for United States President, (name appears in 1,032 Missouri cities)", "Linda* Mill for Member, City Council, Boaz, West Virginia", and "Alexis* Predonte for United States President, United States".
- Search Parameter:** A section with the text "Control of the government is in your hands!" and a cartoon ballot character.
- In-list File Locator:** A box at the bottom right of the candidate list.

At the bottom of the page, there is a pagination control showing "1 2 3 4 10 20 30 42".

Saturation Advertising

About the Home Page

Header Strip

The header strip comprises clickable links to websites and documents essential for the functioning of AlertPolls.com. Mostly, the links are to those that relate to the functions of government and the dissemination of events happening in the United States and the world. Document links relate to making AlertPolls.com behave efficiently.

Left Carousel

The left carousel cycles some, not all, candidates' profiles contained in the website. Clicking on the image zooms and highlights it, encumbering the middle of the screen with dimmed background. Clicking on the links below the image displays the campaign listing page containing a candidate's profile and his stands on issues pertaining to the campaign.

Right Carousel

The right carousel area does not serve any clickable function. It just cycles ten or so images that impart advertising ideas. It functions in synchrony with the other carousels.

Central Carousel

The central carousel cycles, in groups of two or more images, candidates' profiles contained in the website. Clicking on one of the cycling images zooms and highlights it, encumbering the middle of the screen with dimmed background. Clicking on the links below the image displays the campaign listing page containing a candidate's profile and his stands on issues pertaining to the campaign.

2-Column List of Candidates

The two columns display identical list of candidates. Each column can be moved forward or backward in the list using the in-list file locator. For example, the left column can be moved to point to the end of the list while the right column points at the beginning. The redundancy enables one to access a candidate's profile slightly quicker.

Search Parameter

To locate a candidate whose profile is not being displayed in the current screen, the search function is used. The search parameter takes in a word, a partial word, or group of words associated with the candidate's name and the target position of the candidacy.

In-list File Locator

The list of candidates on the screen corresponds to the number in the in-list file locator. The two columns display identical list of candidates. Each column can be moved forward or backward in the list using the in-list file locator. The indicator in one column can be moved to point to the beginning of the file while the other is pointed to the end. The redundancy enables one to access a candidate's profile slightly quicker.

Saturation Advertising

Region Selection Area

The top level region lists 239 countries of the world. Except for the United States or perhaps one or two countries that have a large number of U.S. citizens, they are not displayed since they are not being used in this particular application. The United States, being one of the top level regions, has its states listed as second level region or state level region. Below the state level region is the third level region or the city level region which is where this website's bulk of activities concentrate.

Saturation Advertising

About the Listing Page

Target Position

Target position indicates the position a candidate is campaigning for. It includes words relating to the title, location of the position, scope of influence the position has, and other relevant information necessary to convey the candidate's qualifications.

Base Image

Generally, the base image displays the candidate's personal profile when the listing page is initially opened. Located alone just below the top edge of the page, it is slightly larger and clearer than the thumbnail images. When the base image is clicked it zooms to its full size (about 5" X 5"). Then it cycles in a carousel with the rest of the images in the images array. The candidate's profile is always first in the images array.

Left Slogan Short Message Area

Generally, the left slogan short message area is system established and subscribers have no control over its content. The area sweet-talks potential voters and subscribers to vote and promote certain candidates and political parties. It includes slogans, short sentences, or even paragraphs.

Left Banners

Like the slogan short message area, left banners are used to convince potential voters and subscribers to promote certain types of candidates and political parties by the use of vivid images that appeal to the emotions.

Images Array

The images array is the collection of thumbnails of all uploaded images proposed by a candidate. The images are of physical objects or characters, of words in narrative or bulleted form, or of combination of words and characters. The images must be in .jpg format.

Description

The long description further describes a candidate's fitness for office being sought for. It may contain citations, qualifications, and accreditations not cited elsewhere in the campaign submission.

Right Slogan Short Message Area

Generally, the right slogan short message area is system established and subscribers have no control over its content. The area sweet-talks potential voters and subscribers to vote and promote certain candidates and political parties. It includes slogans, short sentences, or even paragraphs.

Right Banners

Like the slogan short message area, right banners are used to convince potential voters and subscribers to promote certain types of candidates and political parties by the use of vivid images that appeal to the emotions.

Enlarged Image Display Page

The screenshot shows a website for 'AlertPolls.com (aka TVTyme.net)'. The header includes the site name and a navigation menu with links like 'Welcome, Guest', 'Mueller_Report', 'CNN', 'The Hill', 'C-Span', 'Reuters', 'Congress-CNBC', 'The Whitehouse', 'FOX News', 'User's Guide', and 'Assist'. Below the header, there's a main content area with a large image of a woman in a white dress standing in a wooded area. A speech bubble from her says: 'Hello, I am the extremely well-funded candidate for President of the United States'. Below the image is a black box with white text that reads 'Enlarged Image Display'. Underneath this is the text 'Canditte* Weiner - Iowa -'. To the right of the main image, there's a sidebar with text: '...check out issues. Click on a region. 010 Iowa cities), of Times Viewed: 5'. Below the main image and sidebar is a grid of 24 smaller thumbnail images, each showing a different view or detail of the main image. Below the grid is a section titled 'Credentials and Fitness for Office' with the sub-heading 'Additional details not depicted in the above images'. This section contains three paragraphs of placeholder text (Lorem ipsum).

Saturation Advertising

Enlarged Image Display

When the base image in the listing page is clicked the enlarged image display comes on with the listing page staying as a darkened background. The enlarged image measures approximately 5" X 5". It then starts cycling in a carousel with the rest of the images in the array. The enlarged image is the target size that AlertPolls.com proposes to subscribers.

Campaign Ad Targets

Elections

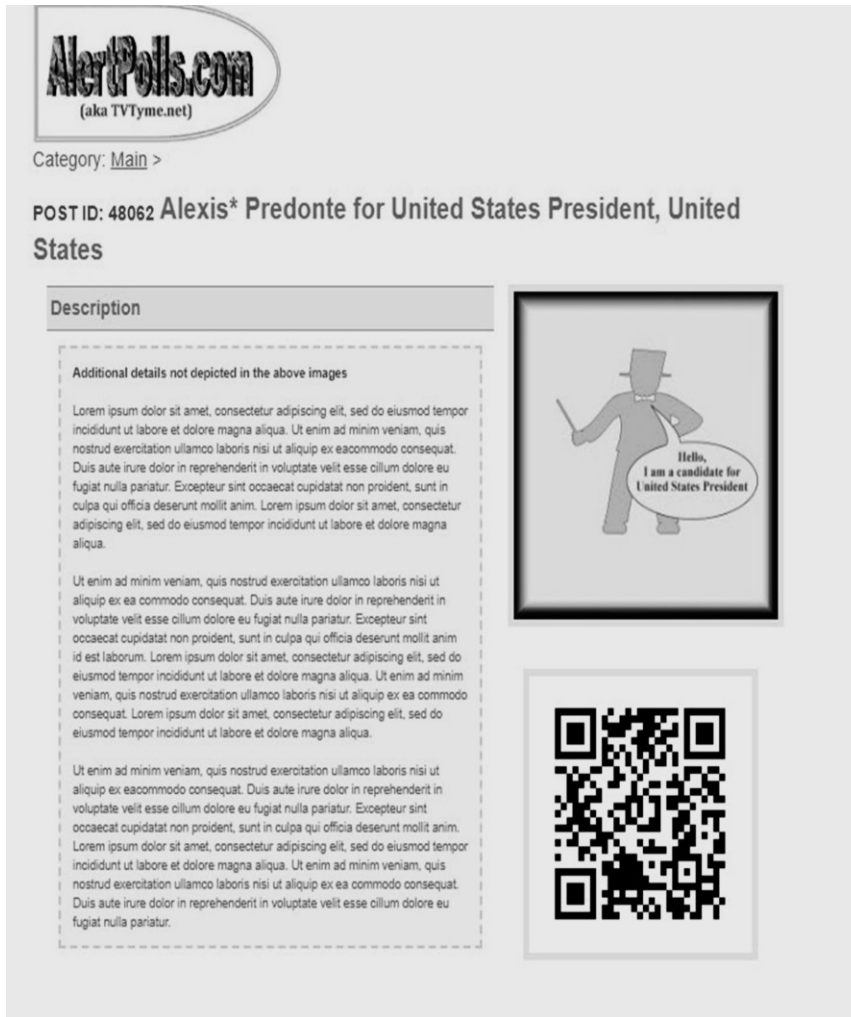

Targeting Ad to the Entire Cities of the United States

- In the adjoining image the sample candidate for United States president, Canditte Weiner's name, appears in the 1,032 cities in the state of Missouri
- Her name will also appear in the rest of the cities of the United States.
- This targeting ad option is made possible by first clicking on "Clear Selection" to reset the region area. Clicking on any state followed by a click on any city displays the general area where the candidate's name appears. Clicking on the name displays the candidate's profile.
- Required skill to display the candidate's profile starting from the home page is approximately four clicks.

The screenshot shows a web page for AlertPolls.com (aka TVTyme.net). The page features a category dropdown set to 'Main'. The main heading reads 'POST ID: 47836 Canditte* Weiner - Missouri - for United States President, (name appears in 1,032 Missouri cities)'. Below this is a 'Description' section containing several paragraphs of placeholder text. To the right of the text is a photograph of a woman in a white dress with a speech bubble that says 'Hello, I am the extremely well-funded candidate for President of the United States'. Below the photo is a QR code.

Duis aute inure dolor in reprehenderit in voluptate velit esse cillum dolore eu fugiat nulla pariatur.

- In the adjoining image, the sample candidate for United States president, Alexis Predonte’s name appears at the click of his name in the home page.
- This targeting ad option is made possible by first clicking on “Clear Selection” to reset the region area to the state level. Clicking on any state makes the candidate’s name appear in the home page. Clicking on the name displays the candidate’s profile.
- Required skill to display the candidate’s profile starting from the home page is approximately three clicks.

Targeting Ad to Cities of a State

The screenshot shows a poll advertisement on the AlertPolls.com website. At the top left is the logo for AlertPolls.com (aka TVTyme.net). Below the logo, the category is listed as 'Main >'. The main heading of the poll is 'POST ID: 47626 Andrew* Kulach for State Attorney General, (name appears in 1,740 Texas cities), Texas'. Underneath this is a 'Description' section containing several paragraphs of placeholder text (Lorem Ipsum). To the right of the text is a cartoon illustration of a man in a suit and top hat, holding a cane, with a speech bubble that says 'Hello, I am a candidate for Attorney General in your State'. Below the illustration is a QR code.

- In the sample image, candidate for Attorney General Andrew Kulach’s name appears in all 1,740 cities in the state of Texas since the position is unique only for that state.
- Other states having similarly unique positions will have candidates appearing in their cities only, and at no other states.
- This targeting ad option is made possible by first clicking on “Clear Selection” to reset the region area to the state level. Clicking on any state followed by a click on any city makes the candidate’s name appear in the home page. Clicking on the name displays the candidate’s profile.
- Required skill to display the candidate’s profile starting from the home page is approximately four clicks.

Targeting Ad to a Senatorial District

- In the sample image, Myrtle Fabricante is a senatorial candidate in the 29th district of California, comprising the cities of Diamond Bar, Rowland Heights, Industry, Walnut, West Covina, Anaheim, Brea, Buena Park, Cypress, Fullerton, La Habra, La Palma, Placentia, Stanton, Yorba Linda, and Chino Hills.
- Other similarly setup senatorial districts will comprise different cities.
- This targeting ad option is made possible by first clicking on “Clear Selection” to reset the region area to the state level. Clicking on any city comprising the senatorial district displays the candidate’s name in the home page. Clicking on the candidate’s name displays the candidate’s profile.
- Required skill to display the candidate’s profile starting from the home page is approximately four clicks.

Targeting Ad to a Congressional District

- In the sample image, Theresa Mescal is a congressional candidate in the 39th district of California, comprising the cities of Anaheim, Brea, Buena Park, Chino Hills, Diamond Bar, Fullerton, Hacienda Heights, La Habra, La Habra Heights, Placentia, Rowland Heights, and Yorba Linda.
- Other similarly setup congressional districts will comprise different cities.
- This targeting ad option is made possible by first clicking on “Clear Selection” to reset the region area to the state level. Clicking on any city comprising the congressional district displays the candidate’s name in the home page. Clicking on the candidate’s name displays the candidate’s profile.
- Required skill to display the candidate’s profile starting from the home page is approximately four clicks.

Duis aute irure dolor in reprehenderit in voluptate velit esse cillum dolore eu fugiat nulla pariatur.

- For strategic reason, in the adjoining image, presidential candidate Bruce Moderayte's name appears in all 1,196 cities of the state of Ohio. He also wants his name to appear in all 1,737 cities of the state of Pennsylvania, 97 cities of the state of New Hampshire, and 1,362 cities of the state of Illinois.
- This targeting ad option is made possible by first clicking on "Clear Selection" to reset the region area to the state level. Clicking on any city comprising the preferred state displays the candidate's name in the home page. Clicking on the candidate's name displays the candidate's profile.
- Required skill to display the candidate's profile starting from the home page is approximately four clicks.

Image 1: A cartoon character holding a sign that says "Hello, I am a candidate for Mayor of our City".

Image 2: A QR code.

- In the adjoining image, candidate for mayor, Luna Frazier is concentrating his campaign in the only city he is a resident of, namely, Anasco, Puerto Rico. He targets his ad accordingly.
- This targeting ad option is made possible by first clicking on “Clear Selection” to reset the region area to the state level. Clicking on the target state displays all the cities in the state. Clicking on the target city followed by a click on the candidate’s name displays his profile.
- Required skill to display the candidate’s profile starting from the home page is approximately four clicks.

Targeting Ad to the Lowest Level Position

- In the adjoining image, Mathilda Hanna is a candidate for city council in the city of Cannonville, Utah. City Council is the lowest level position in the city's ballot.
- This targeting ad option is made possible by first clicking on "Clear Selection" to reset the region area to the state level. Clicking on the target state of Utah displays all the cities in the state. Clicking on the target city of Cannonville followed by a click on the candidate's name displays her profile.
- Required skill to display the candidate's profile starting from the home page is approximately four clicks.

The screenshot shows a web page for a candidate profile. At the top left is the logo for "AlerPolls.com (aka TVTyme.net)". Below the logo, the category is listed as "Main >". The main heading reads "POST ID: 47792 Mathilda* Hanna for Member, City Council, Cannonville, Utah". A "Description" section is visible, containing several paragraphs of placeholder text (Lorem ipsum). To the right of the description is a small image of a cartoon character holding a sign that says "Hello, I am a candidate for a seat in the City Council". Below the image is a QR code.

Housing Unit Estimate - Based on the 2010 Census Data

Year 2015	Estimated households using IRS data (number of returns
Year 2014	Estimated households using IRS data (number of returns
Year 2013	Estimated households using IRS data (number of returns
Year 2012	Estimated households using IRS data (number of returns
Year 2011	Estimated households using IRS data (number of returns
Year 2010	Estimated households using IRS data (number of returns
Year 2009	Estimated households using IRS data (number of returns
Year 2008	Estimated households using IRS data (number of returns
Year 2007	Estimated households using IRS data (number of returns
Year 2006	Estimated households using IRS data (number of returns
Year 2005	Estimated households using IRS data (number of returns

Population Count - Based on the 2010 Census Data

Year 2015	Estimated population using IRS data (number of exemptions)
Year 2014	Estimated population using IRS data (number of exemptions)
Year 2013	Estimated population using IRS data (number of exemptions)
Year 2012	Estimated population using IRS data (number of exemptions)
Year 2011	Estimated population using IRS data (number of exemptions)
Year 2010	Estimated population using IRS data (number of exemptions)
Year 2009	Estimated population using IRS data (number of exemptions)
Year 2008	Estimated population using IRS data (number of exemptions)
Year 2007	Estimated population using IRS data (number of exemptions)
Year 2006	Estimated population using IRS data (number of exemptions)
Year 2005	Estimated population using IRS data (number of exemptions)

Racial Breakdown - Based on the 2010 Census Data

White population
Black or African American population
American Indian population
Asian population
Native Hawaiian population
Other race population
Two or more race population

Saturation Advertising

Gender Breakdown - Based on the 2010 Census Data

Total male population
Total female population

Age Breakdown- Based on the 2010 Census Data

Population under 10 years old
Population 10 to 19 years old
Population 20 to 29 years old
Population 30 to 39 years old
Population 40 to 49 years old
Population 50 to 59 years old
Population 60 to 69 years old
Population 70 to 79 years old
Population 80 years or older

Income Levels - Based on the 2010 Census Data

Percent of the population living below the poverty level
Median individual earnings within past year
Median household income within past year

Home/Rent Costs - Based on the 2010 Census Data

For renters, median gross rent paid per month
Median owner occupied home value

Saturation Advertising

Education Levels - Based on the 2010 Census Data

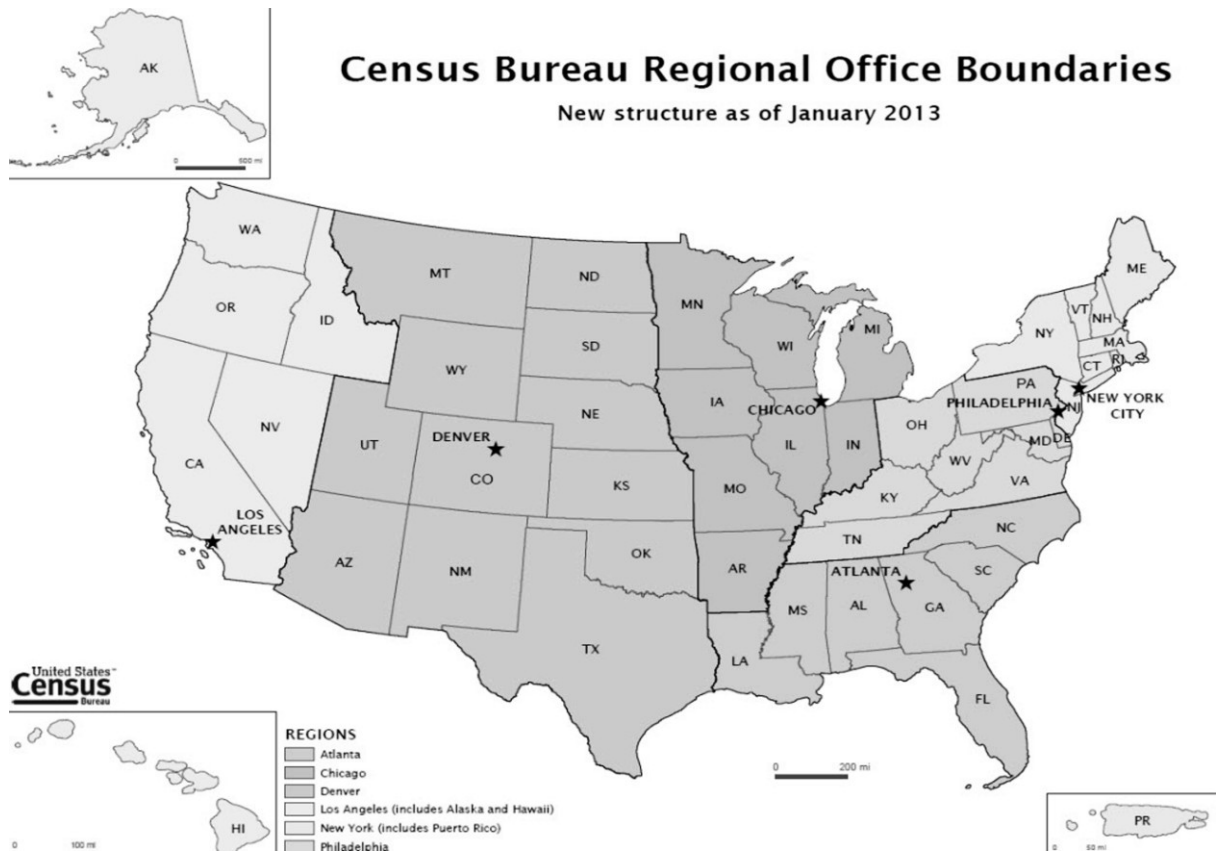

Percent of population with at least a high school diploma
Percent of population with at least a bachelors degree
Percent of population with a graduate degree

Other Targeting Options - Based on the 2010 Census Data

By Zip code (cities within)
By county (cities within)
By area code (cities within)
